

STEPHANIE FINEGAN

June 2008

Stephanie Finegan has a background in industrial design that includes product design, graphics and desktop publishing. Her work at Building Science Corporation includes illustrating the series of Builder's Guides for heating, cooling and mixed climates, and producing a number of publications for authors through Building Science Press. She is involved in our website layout and design, creating presentation materials and a logo/identity package and other promotional and printed pieces.

Prior to joining BSC, Ms. Finegan had been working with environmental engineering firms in Pennsylvania, California and Georgia. Her work in Pennsylvania includes commercial duct layouts. In California, she worked on GIS databases using CAD and digitizing techniques. In Atlanta, Ms. Finegan inspected and tested homes using blower door and duct blaster technologies, and performed duct sealing services for the non-profit organization Southface Energy Institute. She also helped produce their bimonthly newsletter, The Southface Journal.

Ms. Finegan is incorporating her work experience into her master's degree in civil and environmental engineering, focusing on sustainable development and building science.

Education

University of the Arts
Philadelphia, Pennsylvania
Bachelor of Science in Industrial Design

University of Massachusetts
Lowell, Massachusetts
Energy Conversion Certificate

Professional Registrations and Memberships

Energy and Environmental Building Association (EEBA)
